

**Please make a copy of this file to your own google drive, add the names of all group members to the top of this document!**

**All members of your group should submit this document individually.**

Take a look at the following directory location:

C:\Users\caseyhunt\Documents\Arduino\hardware\esp8266com\esp8266\tests\ci

1. What is the root directory of this path?  
The root directory of this path is c:\
2. What is the parent directory of this path?  
C:\Users\caseyhunt\Documents\Arduino\hardware\esp8266com\esp8266\tests
3. If you were looking for this directory on my computer starting in the Documents folder (pictured), describe how you would navigate to it?

Open the Arduino folder.

Go into the hardware folder.

Open esp8266com.

Open esp8266.  
Open tests.  
Finally, open the ci folder.

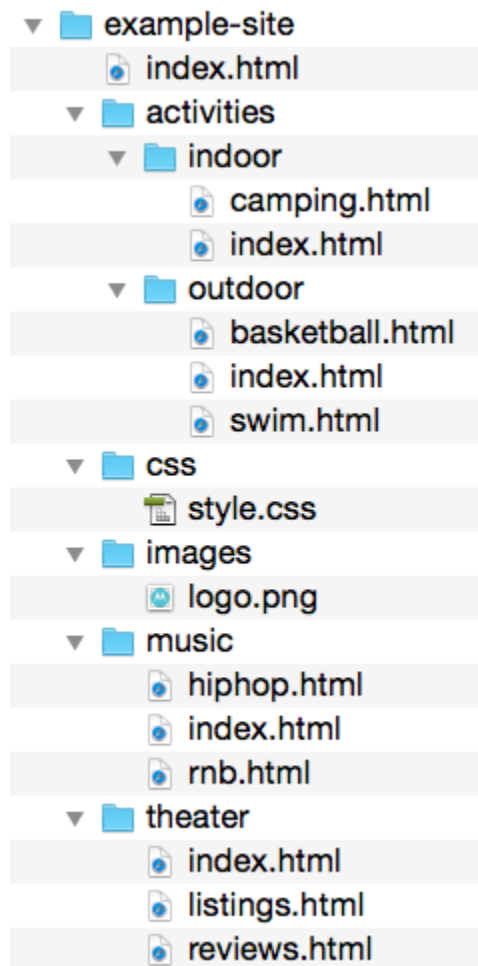

4. What is the name of the parent directory you created for this class?  
ATLS 2200
5. What is the *absolute path* of your github repository for this class (if working in a group, feel free to do this part of the activity for one person together)?

C:\AnshikaWaliaATLS2200\github-anshikagwalia

6. What is the *relative path* of your first homework assignment within your github repo for the class?

C:\AnshikaWaliaATLS2200\github-anshikagwalia/assignment1

Take a look at the following directory:

7. Assuming this directory is the *root*, what is the *absolute path* of basketball.html?  
/example-site/activities/outdoor/basketball.html

8. What is the parent directory of the “theater” folder?  
/example-site/theater
9. If I navigated to the following page: example-site/activities/music/index.html what content would you expect to see here?  
Hiphop.html  
Index.html  
rnd.html
